

Business Travel & Expense Policy

Guidelines for Travel Approval, Accommodation, Meals, and Reimbursement

Finance Department

Document ID: TVSC-FIN-005 | Version 2.1 | Effective January 1, 2026

1. Purpose and Scope

This policy governs all business-related travel and expense reimbursement for TechViet employees, contractors (if specified in their contract), and interns on company business. It ensures consistent, fair, and fiscally responsible use of company funds while enabling employees to travel effectively. All business travel must have a clear business purpose documented in the travel request.

This policy does not cover relocation expenses (see Relocation Policy TVSC-HR-012), client-billable travel (governed by individual client SOWs), or daily commuting costs (covered by the monthly transportation allowance in the Employee Handbook).

2. Travel Approval Matrix

All business travel must be pre-approved before booking. Approval level is determined by the estimated total trip cost (including flights, accommodation, meals, and ground transport). Travel requests must be submitted via the TechViet Finance Portal (finance.techviet.vn).

Travel Type	Estimated Total Cost	Approver(s)	Min Lead Time	Notes
