

Career Development & Training Catalog

Learning Paths, Certification Programs, and Mentorship Framework

People & Culture Team | Version 2.0

Effective: January 2026 | Classification: Internal

1. Engineering Career Ladder — Detailed Competency Matrix

TechViet's engineering career ladder has 6 levels (L1-L6). Each level has defined expectations across 4 competency areas: Technical Skills, Delivery & Impact, Leadership & Collaboration, and Business Acumen. Promotion requires meeting all competencies at the target level for at least one full review cycle (6 months).

Level	Title	Years Exp (Typical)	Technical Skills	Delivery & Impact	Leadership
L1	Junior Engineer	0-2 years	Completes well-defined tasks with guidance. Writes clean code that passes review. Follows established patterns.	Delivers assigned tickets on time. Writes unit tests for own code. Fixes straightforward bugs independently.	Asks questions proactively. Participates in code reviews. Attends team ceremonies.
L2	Engineer	2-4 years	Designs and implements features independently. Understands system architecture. Reviews peers' code effectively.	Owns feature delivery end-to-end. Writes integration tests. Estimates accurately (within 20%).	Mentors L1 informally. Contributes to technical discussions. Documents decisions.
L3	Senior Engineer	4-7 years	Designs complex systems with trade-off analysis. Expert in 2+ technology domains. Leads technical investigations.	Delivers cross-team projects. Defines technical approach for the team. Reduces tech debt strategically.	Mentors 1-2 junior engineers formally. Leads design reviews. Drives engineering standards.
L4	Staff Engineer	7-10 years	Architects multi-service systems. Sets technical direction for the organization. Evaluates and adopts new technologies.	Delivers projects with org-wide impact. Defines team OKRs. Balances innovation with reliability.	Influences engineering culture. Represents TechViet at conferences. Mentors senior engineers.
L5	Principal Engineer	10-15 years	Defines architecture strategy across the company. Industry-recognized expertise. Patents or published research.	Delivers strategic initiatives (multi-quarter). Shapes product direction through technical vision.	Trusted advisor to CTO. Leads Architecture Review Board. Attracts top talent.
L6	Distinguished Engineer	15+ years	Industry thought leader. Shapes the field beyond TechViet. Deep expertise that is irreplaceable.	Strategic impact: defines what TechViet builds. Multi-year technical vision.	Executive-level influence. External reputation. Defines engineering DNA.

2. Certification Programs & Reimbursement

TechViet reimburses 100% of certification exam fees for approved certifications (up to VND 15,000,000 per year per employee). Study materials and courses are covered separately under the learning budget. Passing a certification earns a one-time bonus.

Certification	Provider	Recommended For	Exam Fee	Pass Bonus	Study Time (est.)	Renewal
AWS Solutions Architect – Associate	Amazon Web Services	L2+ Backend, DevOps	\$150	VND 3,000,000	80-100 hours	3 years
AWS Solutions Architect – Professional	Amazon Web Services	L3+ Platform, Architects	\$300	VND 5,000,000	150-200 hours	3 years
Certified Kubernetes Administrator (CKA)	CNCF / Linux Foundation	L2+ DevOps, Platform	\$395	VND 4,000,000	60-80 hours	3 years
Google Professional Cloud Architect	Google Cloud	L3+ Cloud Engineers	\$200	VND 4,000,000	100-120 hours	2 years
Certified Scrum Master (CSM)	Scrum Alliance	L2+ any role, PMs	\$495 (course)	VND 2,000,000	16 hours (course)	2 years
CKAD (Kubernetes Application Developer)	CNCF / Linux Foundation	L2+ Backend Developers	\$395	VND 3,500,000	40-60 hours	3 years
Terraform Associate	HashiCorp	L2+ DevOps, Platform	\$70	VND 2,000,000	40-50 hours	2 years
CISSP	ISC2	L4+ Security Engineers	\$749	VND 8,000,000	200-300 hours	3 years (CPE)

3. Learning Paths by Role

3.1 Backend Engineer Path

Phase	Duration	Topics	Resources	Assessment
Foundation	Month 1-3	Python/FastAPI mastery, PostgreSQL, REST API design, testing (pytest)	Internal bootcamp, Real Python Pro, TechViet codebase walkthrough	Build a CRUD API with 90%+ test coverage
Intermediate	Month 4-6	System design, Kafka event streaming, caching (Redis), Docker/K8s basics	Designing Data-Intensive Applications (book), internal Kafka workshop	Design document for a microservice reviewed by L4+ engineer
Advanced	Month 7-12	Distributed systems, observability (Datadog), performance optimization, security	AWS training, Datadog University, TechViet security workshop	Lead a production feature deployment end-to-end
Specialization	Year 2+	Choose track: Platform Engineering, Data Engineering, ML Engineering, or Security	Certification path + conference attendance + internal tech talk	Present at internal tech talk + earn relevant certification

3.2 Frontend Engineer Path

Phase	Duration	Topics	Resources	Assessment
Foundation	Month 1-3	React 18+, TypeScript, component design, testing (Vitest/Playwright)	TechViet Design System docs, React docs, TypeScript handbook	Build a dashboard component with full test suite
Intermediate	Month 4-6	State management (Zustand/TanStack), performance optimization, accessibility (WCAG 2.1)	Web.dev courses, Lighthouse audit workshops, internal a11y workshop	Achieve Lighthouse score >90 on a production page

Phase	Duration	Topics	Resources	Assessment
Advanced	Month 7-12	Micro-frontends, SSR/SSG (Next.js), CI/CD for frontend, design system contribution	Next.js docs, Module Federation workshop, TechViet Design System repo	Contribute 3+ components to the shared design system

4. Mentorship Program

TechViet runs a formal mentorship program with structured matching, goals, and feedback. Mentors must be L3+ with at least 1 year at TechViet. Mentorship counts as a leadership competency for promotion reviews.

Aspect	Details
Program Duration	6 months per cycle (January-June, July-December)
Meeting Cadence	Bi-weekly 1-on-1, minimum 45 minutes. At least 10 sessions per cycle.
Matching Process	Mentees submit goals via HR Portal. HR + Engineering Managers match based on skills gap, career goals, and personality fit.
Mentor Commitment	Max 2 mentees at a time. Mentors receive VND 2,000,000 bonus per successful mentorship cycle.
Mentee Expectations	Come prepared with agenda, complete assigned tasks between sessions, provide feedback at mid-cycle and end-cycle.
Success Metrics	Mentee achieves 2+ stated goals, both parties rate experience 4+/5, mentee receives 'Meets' or above rating.
Current Stats (Q1 2026)	41 active pairs, 89% completion rate, 4.3/5 average satisfaction, 12 mentees promoted within 6 months.
