

# Procurement & Vendor Management Policy

Purchasing Procedures, Approval Workflows, and Vendor Evaluation

Finance & Operations Team | Version 3.1

Effective: January 2026 | Classification: Internal

## 1. Procurement Approval Matrix

All purchases must follow the approval workflow based on total cost (including tax and multi-year commitment). Purchase requests are submitted via the TechViet Procurement Portal at [procurement.techviet.vn](https://procurement.techviet.vn). Emergency purchases (critical to operations) can be approved retroactively within 48 hours with VP-level authorization.

| Purchase Amount (VND)     | USD Equivalent     | Required Approvals                | Processing Time     | Payment Method                               |
|---------------------------|--------------------|-----------------------------------|---------------------|----------------------------------------------|
| < 5,000,000               | < \$200            | Team Lead                         | Same day            | Corporate credit card or petty cash          |
| 5,000,000 – 25,000,000    | \$200 – \$1,000    | Team Lead + Department Head       | 1-2 business days   | Corporate credit card                        |
| 25,000,000 – 100,000,000  | \$1,000 – \$4,000  | Department Head + Finance Manager | 3-5 business days   | Bank transfer (PO required)                  |
| 100,000,000 – 500,000,000 | \$4,000 – \$20,000 | VP + Finance Director + CFO       | 5-10 business days  | Bank transfer (PO + contract required)       |
| > 500,000,000             | > \$20,000         | CFO + CEO + Board (if >\$50K)     | 10-20 business days | Bank transfer (PO + contract + legal review) |

## 2. Software License Procurement

All software purchases must be reviewed by IT Security for compliance and by Finance for budget alignment. SaaS subscriptions are renewed annually unless cancellation is requested 60 days before renewal date. Shadow IT (unauthorized software) is prohibited per IT Security Policy section 3.

| Software          | Category       | License Type       | Annual Cost               | Users          | Owner          | Renewal Date | Approval Status     |
|-------------------|----------------|--------------------|---------------------------|----------------|----------------|--------------|---------------------|
| GitHub Enterprise | Developm ent   | Enterprise Cloud   | \$252,000 (yearly)        | 280 seats      | VP Engineering | July 2026    | Auto-renew approved |
| Jira + Confluence | Project Mgmt   | Cloud Premium      | \$89,600 (yearly)         | 320 seats      | VP Engineering | Sept 2026    | Auto-renew approved |
| Figma             | Design         | Enterprise         | \$45,000 (yearly)         | 25 seats       | Design Lead    | June 2026    | Review pending      |
| Slack             | Communi cation | Business+          | \$76,800 (yearly)         | 480 seats      | IT Manager     | Jan 2027     | Auto-renew approved |
| Datadog           | Observabi lity | Enterprise         | \$180,000 (yearly)        | 15 hosts + APM | SRE Lead       | April 2026   | Renewal in progress |
| AWS               | Cloud Infra    | Enterprise Support | \$1,440,000 (yearly est.) | Org-wide       | CTO            | Ongoing      | Monthly billing     |

| Software  | Category       | License Type | Annual Cost       | Users     | Owner           | Renewal Date | Approval Status          |
|-----------|----------------|--------------|-------------------|-----------|-----------------|--------------|--------------------------|
| 1Password | Security       | Business     | \$19,200 (yearly) | 480 seats | CISO            | March 2027   | Auto-renew approved      |
| SendGrid  | Email          | Pro          | \$14,400 (yearly) | N/A       | Platform Team   | Aug 2026     | Auto-renew approved      |
| Notion    | Documentation  | Team         | \$28,800 (yearly) | 200 seats | Product Team    | Nov 2026     | Under evaluation         |
| Linear    | Issue Tracking | Standard     | \$24,000 (yearly) | 150 seats | Engineering Mgr | Dec 2026     | Pilot — decision pending |

### 3. Hardware Procurement Standards

| Role               | Standard Equipment                          | Specifications                          | Budget (VND) | Refresh Cycle |
|--------------------|---------------------------------------------|-----------------------------------------|--------------|---------------|
| Engineer (Mac)     | MacBook Pro 14"                             | M3 Pro, 18GB RAM, 512GB SSD             | 55,000,000   | 3 years       |
| Engineer (Windows) | Dell XPS 15                                 | i7-13700H, 32GB RAM, 1TB SSD            | 42,000,000   | 3 years       |
| AI/ML Engineer     | Dell Precision 5690                         | i9-14900HX, 64GB RAM, 2TB SSD, RTX 4080 | 95,000,000   | 3 years       |
| Designer           | MacBook Pro 16"                             | M3 Max, 36GB RAM, 1TB SSD               | 72,000,000   | 3 years       |
| Non-Technical      | Dell Latitude 5540                          | i5-1345U, 16GB RAM, 256GB SSD           | 22,000,000   | 4 years       |
| Monitor (standard) | Dell U2723QE 27" 4K                         | USB-C hub, 90W PD                       | 12,000,000   | 5 years       |
| Monitor (design)   | Dell UP3218K 32" 8K or Apple Studio Display | Color-calibrated, P3 wide gamut         | 35,000,000   | 5 years       |

### 4. Vendor Evaluation Criteria

New vendors must pass a structured evaluation before being added to the approved vendor list. Evaluations are conducted by a cross-functional team (requesting department + IT Security + Finance + Legal). Vendors scoring below 60/100 are rejected. Scores 60-75 require VP approval with documented risk acceptance.

| Criteria              | Weight | Score 1-5             | What We Evaluate                                                                  |
|-----------------------|--------|-----------------------|-----------------------------------------------------------------------------------|
| Technical Fit         | 25%    | 5 = Perfect fit       | Does the product meet our requirements? API availability? Integration complexity? |
| Security & Compliance | 25%    | 5 = SOC2 + ISO27001   | SOC2 report, data residency, encryption, GDPR/PDPD compliance, pen test results   |
| Financial             | 20%    | 5 = Best value        | Total cost of ownership (3-year), pricing model flexibility, exit costs           |
| Vendor Stability      | 15%    | 5 = Public/profitable | Company size, funding, customer base, market position, financial health           |
| Support & SLA         | 15%    | 5 = 24/7 + dedicated  | Response times, dedicated account manager, documentation quality, community       |

## 5. Expense Reimbursement for Software & Tools

Individual software purchases under VND 2,000,000 can be reimbursed via the expense system if pre-approved by the team lead. The annual personal tools budget is VND 5,000,000 per employee (separate from the learning budget). Common approved tools:

| Tool Category     | Examples                                  | Max Reimbursement          | Approval                       |
|-------------------|-------------------------------------------|----------------------------|--------------------------------|
| IDE / Code Editor | JetBrains All Products Pack, Sublime Text | VND 5,000,000/year         | Team Lead                      |
| Productivity      | Raycast, Alfred, Magnet, Rectangle Pro    | VND 1,000,000/year         | Self-approve                   |
| Learning Platform | O'Reilly Safari, Pluralsight, Udemy Pro   | Covered by learning budget | Team Lead                      |
| AI Assistant      | GitHub Copilot, Cursor Pro                | VND 3,000,000/year         | Team Lead + IT Security review |
| Design Tools      | Sketch, Principle, ProtoPie               | VND 5,000,000/year         | Design Lead                    |
